

Suction tool technical data sheet

August 2021 *to check if you have our latest sheet visit tier-global.com/download*

Description For lifting out individual Tier Global floor tiles/planks for maintenance purposes.

Benefits The suction cup lifter features a single stroke pump action, durable aluminium handles and impact-resistant housing for durability.

Physical information

Colour: Black

Diameter: 120mm

Gross weight: 0.42kg

Net weight: 0.41kg

Size: 122mm x 122mm x 101.6mm

Materials: Aluminium alloy and rubber

Packing list: 1 x suction cup lifter

Recommendation We recommend using this in conjunction with our gel product when a flooring surface finish is uneven (eg a sawn or riven surface). In this case apply our suction tool gel around the edge of the cup in order to complete the seal that ensures you can lift out individual Tier Global floor tiles/planks for maintenance purposes.
