## Tongue and groove wooden flooring collection

Whilst our primary focus is for unique flooring systems, there will always be a requirement for the same finishes in a standard system. The solution for dry laying wooden flooring on raised metal access floors is often the initial enquiry, however, there are instances where the same drylay system connects to areas with a concrete subfloor, requiring boards with the same finish to be stuck down. For these situations, and indeed many more, we have the ability to produce tongue and groove boards in all the same finishes we offer in our other systems. A high grade engineered birch laminated board with a thick European oak wear layer suitable for commercial use, finished in the UK, and available in 12 popular standard colours or, for a truly bespoke floor, in any one of over 1000 colours and finishes.

- Oak wear layer
- Laminated birch layer

## Available formats (*width x length x thickness*)

140mm x random up to 2400mm x 12mm  
 180mm x random up to 2400mm x 12mm  
 220mm x random up to 2400mm x 12mm  
 260mm x random up to 2400mm x 12mm  
 140mm x random up to 2400mm x 15mm  
 180mm x random up to 2400mm x 15mm  
 220mm x random up to 2400mm x 15mm  
 260mm x random up to 2400mm x 15mm  
 140mm x random up to 2400mm x 20mm  
 180mm x random up to 2400mm x 20mm  
 220mm x random up to 2400mm x 20mm  
 260mm x random up to 2400mm x 20mm
